BRADLEY AND TAYLOR OUT?

It Is Asserted that Their Relations are Near the Point of Rupture.

By Wire to the Telegram.

Frankfort, April 25—Bradley, the leading counsel for Taylor, goes to Washington tonight to argue the governorship contest case in the supreme court Monday. Taylor's opponents assert that the relations between Taylor and Bradley are near the point of open rupture.

ROBERTS SPREADS A GREAT NET.

He Covers the Western Semi-Circle Around Wepener With 40,000 Men and 150 Guns.

London, April 25, 5 a. m.—The reports that the seige of Wepener had been practically raised were apparently premature. The Boer attack upon Colonel Dalghety's northern position, as described from Maseru, was probably a final attempt to rush the garrison before securing a safe retreat, and as Colonel Dalghety successfully repulsed the attack, little further anxiety is felt on his account.

Lord Roberts has now spread a net, with some 40,000 or more men and 150 guns, covering the whole western semi-circle around Wepener, while General Hamilton has occupied the waterworks, practically without opposition. The Seventh Division, under General Tucker, assisted by naval guns, has made a demonstration from Karee siding, the Boers showing some opposition. At the same time a brigade moved out from Glen to take up a position on a range of hills between Gennandenale, north of the Modder. The water-works were found undamaged, with the exception of the removal of the sliding valves of the pumping engines.

The Boers now can only escape, without risking an encounter northward to Ladybrand, and the chance of a successful outcome of the plans of Lord Roberts depends on whether the British troops can reach the Thaba N'Chu and Ladybrand before the retreating commanddoes from Dewet's Drop and Wepener.

All the correspondents report that the roads are in a terrible condition, which accounts for the slow progress of the British, and if the Boers are as well informed of the British plans as they have hitherto been, they are likely again to escape.

It is now within three weeks of the date predicted for the British occupation of Pretoria, and although the present operations, as suggested in some quarters, may be the beginning of the main advance, it is not certain that they will not entail a further halt at Bloemfontein.

A Robbery in High Point.

Correspondence to Telegram

High Point, April 24—Some time last night burglars entered the store of H. Harris & Bro. and carried off several suits of clothing, a good lot of jewelry and other articles. The entrance was made by breaking the plate glass in the north door of the building. The thief or thieves were very bold, as a family lives over the store. This makes the second time in the past six months that this store has been robbed.

Dolph Poplin, an employee of Snow Lumber Company, had the misfortune to get his right arm badly cut by a band saw yesterday. Dr. Stanton, assisted by Dr. McAnally, dressed the wound and the patient is getting along very well.

Captain W. H. Snow, Mr. W. B. Steele, and Lawyer W. P. Ragan were among the delegates from here to the Republican Convention at Greenboro yesterday.

The Adventurous Hill Twins.

New York Sun.

A second trip of adventure attempted by the Hill twins, of Flushing, on Friday was frustrated by the College Point police

The twins are 8 years old and sons of Hawthorne Hill, a newspaper man living at 205 Lanford avenue, Flushing. They went off on a Robinson Crusoe expedition recently and were away twenty-four hours. On Friday word was received at the Flushing police station that the twins had decamped again. An alarm was sent through the borough of Queens and after two hours of liberty the twins were arrested at the College Point ferry and restored to their home. They were spanked soundly. Hereafter they are to be treated to the slipper cure every time they evince symptoms of restlessness.

WILL SWEEP IN THE WEST.

DEMOCRACY GROWING RAPIDLY IN THE "MOUNTINGS."

Corporation Commissioner Rogers Says that the Amendment Will Run Ahead of the Ticket.

Hon. Samuel L. Rogers, Corporation Commissioner, who has been making the tour of the west with the State candidates, passed through here today enroute to Raleigh.

He told a Telegram reporter that Mr. Aycock was making a fine impression in the west. "We had a larger crowd at Waynesville than at any point that we have yet visited. We are confident that the amendment will run far ahead of the ticket in the west as there are hundreds of the best white Republicans in that section of the State who will vote for it. The west can be counted upon to do its duty next August," said Mr. Rogers.

It is indeed very gratifying to receive such encouraging reports as to the progress of the campaign in the west. The Republicans have concentrated their fight upon the amendment in that section of the State and we must admit that they had begun to make some impression there. Yet as some one remarked, the good people of the west are naturally Democratic and disposed to support party policies, and when the Republican falsehoods are branded they will gladly receive and accept the truth as it is presented to them. Aycock is presenting it to them in all its fullness, and it may be accepted as a settled fact that the west will roll up the biggest Democratic majority for the amendment and the entire ticket that she has given in many a year.

PEARSON-CRAWFORD CONTEST.

Indications That It May Go Over to the Short Session--Bellamy Notified to File His Bill of Expenses.

Special to the Charlotte Observer.

Washington, April 24.—Richmond Pearson was today about the House, endeavoring to get the leaders on the Republican side to have the Pearson-Crawford contested election case taken up at an early date. It was learned today from reliable authority that Major Moody, who was to be Mr. Crawford's opponent next fall, has notified the Republicans in the House that if they unseat Representative Crawford it means certain defeat for the entire Republican ticket in the district this fall, and that if Representative Crawford is allowed to retain his seat the Republican party will have a fighting chance.

It is believed here that this, coupled with the press of more important measures, and Representative Driscoll, the Republican member from New York, having decided to stand for Representative Crawford, will force the matter over until the short session.

House committee on elections No. 2 today notified Representative Bellamy to file his account of expenses in the Dockery-Bellamy contest. Nothing has been done by the committee in regard to the contest itself.

Death of Mrs. W. W. Workman.

Mrs. W. W. Workman who has been sick for three months, passed peacefully away about half past one this afternoon.

Mrs. Workman was a consistent member of the Baptist church and was beloved by all who knew her. She was a daughter of Mr. D. A. Bowles of this place and a sister of Rev. J. A. Bowles of the M. E. Church South. Four of her sisters were with her at the end, Mrs. Mangum and Mrs. C. Workman of this city, and Mrs. Caldwell, of Durham, and Mrs. Brewer, of Roanoke. The sorrowing loved ones have the sympathy of the entire community in this bereavement.

Funeral services will be conducted from West Washington Street church tomorrow afternoon at 3 o'clock by Rev. Mr. Johnson and Dr. J. C. Rowe.

NOW SURROUNDING THE BOERS.

RELIEF OF WEPENER HAS BECOME INCIDENTAL.

Great Movement of Bagging the Boers is Being Executed—Must Escape Quickly or Not at All

By Wire to the Telegram.

London, April 25—British operations east of Bloemfontein increase in importance with each days news. What at first appeared diversion for the relief of Wenener has developed into operations of a large scale. Saving the garrison of Wepener has become incidental to the general movement having as its object the enveloping of all the Boers on Robert's flank, and which will probably merge into a general advance on Kroonstadt before it is finished. A Cordon is now being stretched around the Boers on three sides. The British have about forty thousand men, the Boers not over fifteen thousand, so they must move quickly to escape being surrounded. One line of retreat to Ladybrand yet remains open. Escape or capture should be determined on in the next few days and will have an important bearing on the war.

WEPENER REPORTED OCCUPIED.

Herschel, April 25.—It is reported that the British have occupied Wepener unopposed. It is also said that the Boers are unable to escape north and that great events are expected.

DALGETTYS ATSACKED.

Mazru, April 25—On breaking bivonac this morning Brabant and Hart, discovered that the Boers, who had fallen back yesterday toward Wepener, but advanced during the night several miles nearer Starus's farm to a favorable position for resistance. Dalgetty was severely attacked this morning by six guns, probably with the intention of preventing him from assisting in the relief column. It seemed yesterday that Dalgetty had been practically relieved but the offensive attitude of the Boers this morning shows the idea to be erroneous.

POLE-CAREW REACHES ROODKOP.

Blomefontein, April 25—Pole-Carew's division reached Roodkop yesterday without casualties, its advance was covered by cavalry, and horse artillery which drove back the enemy with heavy loss, they leaving the dead on the ground. Mounted troops halted for the night at Grootfontein. This morning crossing Modder river at Valsbank.

THE SULTAN BROUGHT TO TERMS.

The Right of Our Missionaries to Build Schools in Turkey Conceded.

Washington, April 25—It can be stated on authority that the negotiations respecting the missionary claims are progressing in the most satisfactory manner in the view of the government. The department has received from Mr. Griscolm, the United States charge d' affairs, a cablegram announcing that the Porte has undertaken to meet all of the engagements made between the United States minister respecting the payment of the claims set up on account of the destruction of the American mission property in Turkey. It is not stated when the payments will be made, and it is surmised that owing to the many obligations of greater magnitude pressing upon the Porte, some time may yet elapse before the money is actually in hand. The charge d' affairs also confirmed the the press reports as to the publication by the Porte of an irade authorizing the re-building of the destroyed missions at Harpoot and Harsan, and the construction of an annex to the Roberts College, the great American theological school in Constantinople.

This action of the Turkish authorities is regarded as of importance far exceeding the mere payment of $90,000 on account of the property destroyed by a mob. It amounts to a recognition of the right of our missionaries to build their schools in Turkey, and insure them against what they regard as a gradual, but absolute exclusion from the domains of the Sultan. Under the Turkish law, buildings destroyed under the condition surrounding those at Harpoot can be re-constructed only by special permison of the Porte. In the cease of the Harpoot schools and Roberts College, the appplications have been pending for several years before the Porte, and several American ministers have vainly tried to forward.

Once an application progressed so far that it received the approval of the Sultan, but by some mysterious means it was made away with by some one connected with the Porte and never having been officially promulgated was of course of no force.

On the whole the officials here regard Mr. Orissms cable as making the the safe passage of what might have been regarded as a critical point in the negotiations, and feel confident that in addition to this notable concession, the United States will secure all of its just claims.

His New Stove.

Old Hi Drew, who lives in a village not 40 miles away, came into town last week on the sly to buy a birthday gift for his wife. He cast about vigorously and struggled in a valiant way through the crowds, finally being washed ashore in the doorway of a hardware establishment. Despairing of fighting his way any farther, he made up his mind to make his purchase right there. Martha wanted a new stove, anyway. So he allowed himself to be taken in hand by an energetic salesman and had soon purchased for $21 an article that was guaranteed to cook anything and everything all at one time. He had it expressed out to the village and by cunning strategy succeeded in getting it set up in the kitchen the next morning without Martha's knowledge. When she saw it, she hugged him and beamed all over with delight. Then he went out and killed a young sucking pig and two chickens and prepared for a royal spread.

Suddenly a blank look passed over the old man's face.

"Why, what's the matter, Drew?" exclaimed his wife.

"Look it here!" he cried. "Here I've been and bought a darn gas stove for $21, and there ain't no gas for nine miles."—Chicago Times-Herald.

Quick Arrow Shooting.

The Maya Indians have acquired extraordinary dexterity with the bow and arrow, which, with the spear, is their only weapon, though the boys before they are strong enough to draw the bow often use a sling made from a strip of rawhide, with which they kill squirrels and small birds. The bows are about five feet long, made of a thin, tough strip of cuhoon palm, well seasoned. The arrows are usually carried in a tiger skin quiver and can be used with marvelous rapidity, as the following incident will show:

A chief of the Lacondones of my acquaintance named Canek had been on bad terms with his father-in-law for some time. One morning while hunting in the bush he espied the old man in an anana tree gathering the apples. He at once fired an arrow at the man, striking him through the chest and while the body was falling placed another arrow in the neck. Fortunately for himself he managed to reach the nearest Spanish settlement before any of the murdered man's relatives could overtake him.—Chambers' Journal.

WEDNESDAY, APRIL 25 1900.

EXIT OF MATTHEW STANLY.

By a vote of 33 to 32 Matthew Stanly Quay yesterday was shut out of the United States Senate. This is a fi ending of a very remarkable struggle. When the legislature of Pennsylvania was in session it failed to elect a senator to succeed Quay, who has served several terms. The great fight to defeat Quay was waged by John Wanamaker, and succeeded not only in preventing the election of Quay, but of anyone else as well. Immediately after the legislature adjourned Quay's "friend," Governor Stone, appointed him to the unfilled place.

The issue against Quay was turned upon the right of the Governor of a State to appoint a senator after the legislature had met and failed to elect one. The right of a Governor to appoint to fill an unexpired term until the legislature meets was not involved It is a fortunate thing that the Senate has refused to admit Quay. It would have been a fearfully bad precedent, and added much to the trouble which legislatures may have in electing when strong contests are made, and put an unwarranted authority into the hands of the Governor. Beside that, the turning down of politicians like Quay and Clark increases the respect that ordinary people have for what should be the most august body in the land.

What has become of Pritchard's resolution which sought to have the United States Senate assume the functions of the Supreme Court and declare the proposed amendment to the Constitution of this State unconstitutional?—Winston Sentinel.

The Senator seems to have dropped his bill when the House passed the amendment in Hawaii.

You can't lose Mr. Butler. He is sincere in nothing excepting in looking out for Butler. We don't believe a more selfish, unprincipled, vindictive, malicious man—a meaner man in all respects—ever lived in the State, and the only wonder is that he has succeeded in deceiving anybody so long. The Democrats who wanted to form a partnership with him two and four years ago ought to go kick themselves every time they think about it. —Statesville Landmark.

They are doing that very kicking now, brother.

During the congress election of 1898, it will be recollected that the Tolberts, of South Carolina, got some pretty hard jars in connection with R. R Tolbert's race for congress. In fact there was a good deal of shooting, and the Tolberts, of course, as all Republicans in the South do when in trouble, sought the protection of the Great Father at Washington. From our Washington special today, it will be seen that even the R publicans have gone back on the Tolberts, which is proof that the things we heard about the many excellences of these gentlemen, from their sympathizers, was moonshine. When men get into the troubles that came upon the Tolberts, it is positive proof that there is more behind it than straight politics.

A man who makes speeches never is quite sure when the ghost of one is going to rise up and make him afraid. That is the case with Senator Hoar. He is now recognized as the most scholarly, the most able, the most graceful man that the expansion controversy has sumomned upon the negative side. Yet but five years ago, in a speech at Plymouth Rock, Senator Hoar said:

"The tree our fathers set covered at first a little space by the seaside. It has planted its banyan branches in the ground. It has spread along the lakes It has girdled the gulf. It has spanned the Mississippi. It has covered the prarie and the plain. The sweep of its lofty arches rises over the Cascades and the Nevadas. Its hardy growth shelters the frozen regions of the Northwest. Its boughs hang over the Pacific. And in time—good time—it will send its roots beneath the waves and receive under its vast canopy the islands of the sea.

The "good time" seems to have stolen a march on Senator Hoar, and came in before he was quite ready to receive it.

There is something very interesting in the idea of "preaching" to a congregation of Chinamen in their own country. Think of the utter helplessness of a man who stands before a crowd of people of that stolid country, in the interior, for instance, and attempts to explain to them the things, which in his own country, the children know. It is said that the hardest book to write is a child's book. How hard it must be then to explain to these heathen children what, to them, must be the hopelessly tangled plan of the Gospel. This idea is suggested by what Rev. Mr. Laughlin of New York, a returned missionary, remarked in a sermon of Sunday: He said:

But I want to tell you, my friends, that the missionaries out there preach and teach other things besides Christ and Him Crucified. For instance, I have a sermon on railroads, got up under five distinct heads, and I have preached it dozens of times in China, that the natives might get a correct notion of what a well-equipped, well operated railroad is like and what a mighty good thing it is for the country through which it runs.

Think of a minister having to preach to people who don't so much as know what a railroad is.

WOULD BUY OFF POITER PALMER

Italian Saloon Keeper to be His Neighbor.

Chicago Dispatch, 21st.

Frank Gazzolo, 'King of Italy,'' and keeper of several West Side saloons patronized by banana venders and organ grinders, is now a close neighbor of Potter Palmer. Some time ago Mr. Palmer noticed that ground was being broken for a new residence on some lots adjoining his Lake Shore Drive mansion. He made inquiries, and when he found who his new neighbor was to be gave his real estate agent authority to buy the lots at any cost. When Gazzolo was approached he said he didn't want to sell. An offer of $25,000 more than he had paid for the place was made, but instead of being tempted he asked why Mr. Palmer was so anxious to buy. The agent frankly told him that Mr. Palmer did not care particularly for the ground, but he did object to having a saloon keeper living so close to him. Mr. Gazzolo placidly thought the matter over for a few minutes and then remarked:

"Mr. Palmer doesn't like me for a neighbor, and I don't want to sell. But I will fix that alright. You tell Mr. Palmer that I will buy his place. Then he won't have me for a neighbor."

What Mr. Palmer said when informed of Gazzolo's offer has not yet been given out. The attempt to buy Mr. Gazzolo off has been ended.

A FISH STATION FOR US.

Mr. Small Trying to Get It—The Tolberts Not in Good Standing.

Special to the Telegram.

Washington, April 25—Representative Small, of North Carolina has much hope that a favorable report will be ordered upon his bill by the Committee on Merchant Marine and Fisheries, for the establishment of a station in North Carolina for the investigation of problems connected with Marine Fisheries. It is hoped that the bill of Mr. Small will pass the House at an early date. There are several other bills which have been introduced in the House for the establishment of such a station in other states, one of them proposes to have it established on the coast of Florida.

Mr. Small has made a thorough study of this important subject, and he has many arguments to show that the North Carolina coast is the proper one for such a station. If the House passes the Small bill it is proposed to locate the station somewhere in the vicinity of Beaufort Harbor, which Mr. Small believes to be the ideal location for such a station, and which he believes would be of a very important nature to the people along the entire coast.

Mr. H. J. Berry, a prominent citizen of Charleston, S. C., is in the city for a few days stopping at the St. James Hotel. Mr. Berry in speaking of the turning out of Collector Tolbert, stated, that not long ago Tolbert was a prominent factor in South Carolina politics, being at the present time a member of the South Carolina Republican State Central Committee. He does not think, however, that he will be again chosen to that position, and he says that whatever political influence and prestige he hitherto had, he has lost, by his administration of the Charleston Custom House, and through his connection with the liquor scandal which has caused such a sensation throughout the country.

In speaking of Col. R. R Tolbert, the late Republican candidate for congress, Mr. Berry said that he did not believe that the House of Representatives, although so strongly republican, will take the slightest notice of his claim for a seat in that body. Mr. Berry himself is a gold man, and a republican, and a supporter of the McKinley administration. He says that the appointment of Wallace as Collector is a first class one, and that it will give much satisfaction to people of Charleston.

The Republican Ticket.

Washington Post.

For President—William McKinley, of Ohio.

For Vice-President—Theodore Roosevelt, of New York.

The ticket which will be nominated at the Philadelphia convention has now been practically decided upon. Governor Roosevelt, despite all his protestations, will undoubtedly be the choice of the delegates, and he will accept the nomination. This is the meaning of his selection as one of the delegates at large from New York to the National convention. Long before the New York State convention assembles to name a governor Mr. Roosevelt will be out upon the stump, speaking as the Vice-Presidential candidate of his party. His successor in the gubernatorial chair will be Benjamin B. Odell, Jr.

DOES IT PAY TO BUY CHEAP?

A cheap remedy for conghs and colds is all right, but you want something that will relieve and cure the more severe and dangerous results of throat and lung troubles. What shall you do? Go to a warmer and more regular climate? Yes, if possible; if not possible for you, then in either case take the only remedy that has been introduced in all civilized countries with success in severe throat and lung troubles, "Boschee's German Syrup." It not only heals and stimulates the tissues to destroy the germ disease, but allays inflammation, causes easy expectoration, gives a good night's rest, and cures the patient. Try one bottle. Recommended many years by all druggists in the world. For sale by Grissom & Fordham.

BLOOD POISON.

Mercury AND Potash Make Wrecks, Not Cures

In some cases the external signs of Contagious Blood Poison are so slight that the victim is firmly within the grasp of the monster before the true nature of the disease is known. In other cases the blood is quickly filled with this poisonous virus and the swollen glands, mucus patches in the mouth, sores on scalp, ulcers on tongue, sore throat, eruptions on skin, copper colored splotches, and falling hai and eyebrows leave no room for doubt, as these are all unmistakable signs of Contagious Blood Poison.

Doctors still prescribe mercury and potash as the only cure for Blood Poison. These poisonous minerals never yet made a complete and permanent cure of Contagious Blood Poison. They drive the disease back into the system, cover it up for a while, but it breaks out again in worse form. These powerful minerals produce mercurial rheumatism and the most offensive sores and ulcers, causing the joints to stiffen and finger nails to drop off. **Mercury and potash make wrecks, not cures,** and those who have been dosed with these drugs are never after free from aches and pain.

S. S. S. acts in an entirely different manner, being a purely vegetable remedy; it forces the poison out of the system, and instead of tearing down, builds up and invigorates the general health. S. S. S. is the only antidote for this specific virus, and therefore the only cure for Contagious Blood Poison. No matter in what stage or how hopeless the case may appear, even though pronounced incurable by the doctors, S. S. S. can be relied upon to make a rapid, permanent cure. S. S. S. is not a new, untried remedy; an experience of nearly fifty years has proven it a sure and unfailing cure for this disease. It is the only purely vegetable blood medicine known.

Mr. H. L. Myers, 100 Mulberry St., Newark, N. J., says: "I was afflicted with a terrible blood disease, which was in spots at first, but afterwards spread all over my body. These soon broke out into sores, and it is easy to imagine the suffering I endured. Before I became convinced that the doctors could do me no good I had spent a hundred dollars, which was really thrown away. I then tried various patent medicines, but they did not reach the disease. When I had finished my first bottle of S. S. S. I was greatly improved, and was delighted with the result. The large, red splotches on my chest began to grow paler and smaller, and before long disappeared entirely. I regained my lost weight, became stronger, and my appetite improved. I was soon entirely well, and my skin as clear as a piece of glass."

Troubles of a Candidate.

"Well, sir," says Mr. Dooley; "'tis a hard year Cousin George has in sthore for f'r him. Th' first thing he knows he'll have to pay f'r havin' his pitchers in th' pa-aper. Thin he'll larn iv several previous convictions in Vermont. Thin he'll discover that they was no union label on th' goods he delivered in Manila. 'Twil' be pointed out be careful observers that he was illicited president iv th' A. P. A. be the Jesuits. Thin some wun'll dig up that story about his not feelin' any too well th' mornin' iv the fight, an' ye can imagine the pitchers they'll print, an' th' jokes that'll be made, an' th' songs: 'Dewey Lost His Appetite at the Battle iv Manila.' 'Did McKinley Iver Lose His?' An' George'll wake up in th' mornin' after illiction an' he'll have a sore head an' a sorer heart."

Mr. Dooley is a political philospher, and prophet. The campaign liar has already begun on Dewey and the Admiral has already begun to "nail campaign lies." Dewey will soon discover that there is more sport and glory in fighting Spaniards than in fighting such foes as one meets in running for a political office.

REMARKABLE CURE OF RHEUMATISM.

Kenna, Jackson Co., W. Va.

About three years ago my wife had an attack of rheumatism which confined her to her bed for over a month and rendered her unable to walk a step without assistance, her limbs being swollen double their normal size. Mr. S. Maddox insisted on my using Chamberlain's Pain Balm. I purchased a fifty-cent bottle and used it according to the directions and the next morning she walked to breakfast without assistance in any manner, and she has not had a single attack since.—A. B. Parsons. For sale by C. E. Holton, druggist.

If ghosts could blush, many would do so upon reading the epitaphs on their tombstones.

COLD STEEL OR DEATH

"There is but one small chance to save your life and that is by an operation," was the awful prospect set before Mrs. I. B. Hunt, of Lime Ridge, Wisconsin, by her doctor after vainly trying to cure her of a frightful case of stomach trouble and yellow jaundice. He didn't count on the marvelous powers of Electric Bitters to cure stomach and liver troubles, but she heard of it, took seven bottles was wholly cured, avoided surgeon's knife, now weighs more and feels better than ever. It's positively guaranteed to cure stomach, liver and kidney troubles and never disappoints. Price fifty cents at C. E Holton's drug store.

"What I can't understand," growls the confirmed bachelor, "is why parents refer to their children as 'young hopefuls,' when they seem so hopeless."

J. I. Carson, Prothonotary, Washington Pa., says, "I have found Ko-Dol Dyspepsia Cure an excellent remedy in case of stomach trouble, and have derived great benefit from its use." It digests what you eat and can not fail to cure. Howard Gardner.

THE BEST IN THE WORLD.

We believe that Chamberlains's Cough Remedy is the best in the world. A few weeks ago we suffered with a severe cold and a troublesome cough, and having read their advertisements in our own own and other papers we purchased a bottle to see how it would affect us. It cured us before the bottle was more than half used. It is the best medicine out for colds and coughs —The Herald, Andersonville, Ind. For sale by C. E. Holton, druggist.

DYSPEPSIA

"My wife suffered for many years from Nervous Dyspepsia, Sick Headache, Sleeplessness and Nervous Debility," writes John Kelloes, Philadelphia. "We tried many physicians and numerous remedies, but with no results, until I heard of Johnson's Dyspepsia Cure. We bought six boxes, and the results far surpassed our expectations. She now eats and sleeps well, is gaining in flesh, and her color, which had got to be yellow and sickly, is now as fresh as when we were first married, and it tell her that Johnson's Dyspepsia Cure has made her ten years younger."

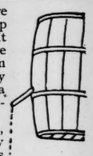
Who would think there was insanity behind a drop of water? But there is. It was a favorite torture in the old days to fasten the victim where water should slowly drip on his forehead. In a little while he was a howling maniac.



Women do not, as a rule, realize how the steady drains which sometimes afflict them must at last re-act on the mind. Sometimes, it is only fretfulness, irritability or peevishness. At other times the condition passes beyond unreasonableness to irrationality.

With the relief of the body, from disease, Dr. Pierce's Favorite Prescription gives also a cheerful mind and contented spirit. When the drains and pains are stopped the mind soars up like a balloon from which dead weight has been cast out. Mothers who never knew a happy moment when the birth hour confronted them, and younger women doomed each month to a period of mental depression as well as physical suffering, have found a perfect cure by the use of "Favorite Prescription." It contains no alcohol, neither opium cocaine or other form of narcotic.

"I suffered with female weakness about eight years—tried several doctors but derived no benefit until I began using Dr. Pierce's Favorite Prescription," writes Mrs. John Green, of Danville, Boyle Co., Ky. "This medicine was recommended to me by other patients. I have taken six bottles and I feel like another person."

"I took your medicine six months and feel now like a new person," writes Miss Annie Stephens, of Belleville, Wood Co., W. Va. "Have no headache, no backache, no pain anywhere. I took seven bottles of Doctor Pierce's Favorite Prescription, and seven bottles of his 'Golden Medical Discovery.' I think there is no medicine like Doctor Pierce's. I can't speak highly enough of your medicine for it has done me so much good. I don't feel tired as I used to, nor sick. I feel well and think there is no medicine equal to Dr. Pierce's Favorite Prescription."

Doctor Pierce's Pleasant Pellets are graduated to the sensitive system of women.

THE PRESIDENT AT CHURCH.

He Hears a Missionary Sermon on China.

New York Sun of Monday.

President McKinley went to the Brick Presbyterian Church yesterday morning as the guest of Mr. and Mrs. Morris K. Jesup, and heard a talk on China as a missionary field by the Rev. J. H Laughlin, for many years a Presbyterian missionary to China. It was an interesting address on the needs and possibilities for Christianizing and civilizing the Chinese Empire.

The President and his private secretary, Mr. Cortelyou, drove up to the church in Mr. Jesup's carriage about five minutes before 11 o'clock. The small crowd in front of the church uncovered as the President, assisting Mrs. Bliss from the carriage, entered the church. The party was ushered to Mr Jesup's pew about half way down the main aisle. The Rev. Maltbie D Babcock, pastor of the church, prayed "for all those associated in authority over us," and for the "Christianizing of the isles of the sea," shortly after the President entered and then introduced Mr. Laughlin. The church was crowded. Mr Laughlin told how the Empress Dowager was working enthusiastically to put a stop to the encroachments of Western civilization in China by closing the schools which the young Emperor had fostered and presided over largely by missionary teachers from the United States. Toward the close of his address, Mr. Laughlin said that he was not sure but that God had raised up the Empress Dowager for the special purpose of showing to the people of the Western world the need of Christian missionaries in China, thus inspiring great interest in missionary work there.

FOR THE BABIES.

There is no better medicine for the babies than Chamberlain's Cough Remedy. Its pleasant taste and prompt and effectual cures make it a favorite with mothers and small children It quickly cures their coughs and colds, preventing pneumonia or other serious consequences. It also cures croup and has been used in tens of thousands of cases without a single failure so far as we have been able to learn It not only cures croup, but when given as soon as the croupy cough appears, will prevent the attack. In cases of whooping cough it liquefies the tough mucous, making it easier to expectorate, and lessens the severity and frequency of the paroxysms of coughing, thus depriving that disease of all dangerous consequences. For sale by C. E. Holton, druggist.

It doesn't require a trust to make umbrellas go up. An April shower will do that.

STORY OF A SLAVE.

To be bound hand and foot for years by the chains of disease is the worst form of slavery. Geo. D. Williams, of Manchester, Mich., tells how such a slave was made free. He says: "My wife has been been so helpless for five years that she could not turn over in bed alone. After using two bottles of Electric Bitters, she is wonderfully improved and able to do her own work." QUESTIONS ANSWERED.

Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mothers and grandmothers never thought of using anything else for indigestion or biliousness. Doctors were scarce, and they seldom heard of appendicitis, nervous prostration or heart failure, etc. They used August Flower to clean out the system and stop fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and bad with headaches and othaches. You only need a few doses of Green's August Flower, in liquid form, to make you satisfied there is nothing serious the matter with you. For sale by Grissom & Fordham.

One bad tooth in a man's mouth will usually feel as big as an acre.

BRAVE MEN FALL

Victims to stomach, liver and kidney troubles as well as women, and all feel the results in loss of appetite, poisons in the blood, backache, nervousness, headache and tired, listless, rundown feeling. But there's no need to feel like that. Listen to J. W. Gardner, Idaville, Ind. He says: "Electric Bitters are just the thing for a man when he is all run down, and don't care whether he lives or dies. It did more to give me new strength and appetite than any thing I could take. I can now eat anything and have a new lease on life." Only 50 cents at C. E. Holton's drug store. Every bottle guaranteed.

Kansas City Journal; Admiral Dewey at least ought to be able to come to Kansas City with an instructed District of Columbia delegation.

GLORIOUS NEWS

Comes from Dr. D. B. Cargile, of Washita, I. T. He writes: "Four bottles of Electric Bitters has cured Mrs. Brewer of scrofula, which had caused her great suffering for years. Terrible sores would break out on her head and face, and the best doctors could give no help: but her cure is complete and her health is excellent." This shows what thousands have proved,—that Electric Bitters is the best blood purifier known. It's the supreme remedy for eczema, tetter, salt rheum, ulcers, boils and running sores. It stimulates liver, kidneys and bowels, expels poisons, helps digestion, builds up the strength. Only 50 cents. Sold by C. E. Holton, druggist. Guaranteed.

NEXT TO CALIFORNIA.

North Carolina Stands Second of the States in Paris.

News and Observer.

Letters recently received from Mr. T. K. Bruner, in Paris, who went over to look after the receipt and installation of North Carolina's exhibits there, are quite gratifying in the news they contain regarding the State's comparative prominence. California, in its usual aggressive, go-ahead way, stands first, which is no surprise to those who have seen the State's extensive advertising in the past and examined its exhibits at the recent expositions on this side of the water. But it is rather an object lesson to some of our Northern and Western neighbors to find North Carolina standing second, as she undoubtedly does in the quality and quantity and diversity of the material shown It is noticeable that in the main Palace of Forestry the finest colored transparency there, a great and noble picture five feet by four in size, is a scene from Western North Carolina showing in its wide sweep of forest-covered mountains, the wonderful combination of commercial worth and aesthetic beauty of that favored country.

Mr John S. ook, of Atlanta, Ga., a great sufferer from dyspepsia and indige tion, writes: "I have been suffering with dyspepsia for ten years I began taking Tyner's Dyspepsia Remedy and gained fifte n pounds in thirty days It is a great blessing. I can eat supper, go to bed and sleep like a babe—something I could not do before. John S. Cook."

W. W. Mayhew, Merton, Wis., says, "I consider One Minute Cough Cure a most wonderful medicine, quick and safe." It is the only harmless remedy that gives immediate results. It cures coughs, colds, croup, bronchitis, grippe, whooping cough, pneumonia and all throat and lung diseases. It's early use prevents consumption. Children always like it and mothers endorse it. Howard Gardner.

Foiled.

"Anger," he said thoughtfully, "shortens life."

She looked at him sharply.

"It also," he went on, "spoils beauty. It has an exceptionally injurious effect on a pretty face."

"John Henry," she exclaimed, "what is it you want to say to me? What provoking suggestion have you to make now? For what offensive ruling in domestic economy are you paving the way?"

Then he knew that all his precautions were useless and that he might as well have told her in the first place that she would have to wait a month for that new bonnet.—Chicago Post.

The Point of View.

The Bird in the Hand assumed his most winning aspect and addressed the Bird in the Bush.

"It is conceded," said he, "that my position renders me worth twice as much as you are, but I will trade places with you, even up, asking nothing to boot!"

But the Bird in the Bush thought he could detect something of disingenuousness in this seemingly magnanimous offer and flew away.—Detroit Journal.

The Real Thing.

Johnny (who is jealous of mamma)—Mamma likes me better than she does you!

Evelyn (who enjoys teasing)—Why, no, Johnny. Of course she loves Betty and me best! Just think, she was our mother long before she was yours!

Johnny (scornfully)—Hoh! What of that? You are nothing but a sample copy, anyway! And Betty's only a trial subscription! But I am the real thing! —Life.

A Real Mascot.

"Exit, Freddy? Well, it is a Latin placard hung around on the walls in theaters and opera houses to keep people from thinking they smell fire."—Indianapolis Journal.

CANNOT BE PRODUCED.

Books Cannot be Opened to Show General Undervaluation of Corporations.

Raleigh Post.

Judge Simonton's ruling upon the matters referred to him by the standing master, Ex-Judge James E. Shepherd, in the railway taxation cases, was received here yesterday.

Judge Simonton rules that private corporations cannot be compelled to open for examination the books of the company with the object of ascertaining whether or not its property has undervalued.

In his ruling, made ten days ago, on the questions submitted to him, Judge Simonton held that the books of a private corporation could be produced for the purpose of showing particular instances of undervaluation. This ruling applies only to specific instances of undervaluation.

The second question submitted to the standing master was whether it is competent for the defendants to show the value of the stock and bonds of the Wilmington & Weldom Railroad.

Judge Simonton has already ruled that the question as to the valuation of railroads is not before the court, the burden being on the railroads to show that other property is undervalued.

NO RIGHT TO UGLINESS

The woman who is lovely in face form and temper will always have friends, but one who would be attractive must keep her health. If she is weak, sickly and run down, she will be nervous and irritable. If she has constipation or kidney trouble, her impure blood will cause pimples, blotches, skin eruptions and a wretched complexion. Electric bitters is the best medicine in the world to regulate stomach, liver and kidneys and to purify the blood. It gives strong nerves, bright eyes, smooth, velvety skin, rich complexion. SEVEN RUNNING SORES CURED

—BY—

Johnston's Sarsaparilla

QUART BOTTLES.

THE GREAT SPRING MEDICINE.

JOHNSTON'S SARSAPARILLA as a Blood Food and Nerve Energizer, is the greatest SPRING MEDICINE ever discovered. It comes as a rich blessing from heaven to the "worn out," the run down, the overworked and debilitated. That "tired feeling," those "sinking spells," the languor and despondency which arise from badly nourished nerves, from thin, vitiated blood and an underfed body, vanish as if by a magic spell. The weariness, lassitude and nervous prostration which accompany the spring, time and the heat of summer, are conquered and banished at once. For every form of neurasthenia, and all ailments of the brain and nerve, insomnia, hysteria and nervousness generally, it is almost a specific. It furnishes the very elements to rebuild worn-out nerve tissues. It feeds brain, nerve centers and nerves, calming and equalizing their action; it makes rich, red, honest blood. Newness of life, new hope, new strength follow its faithful use. It makes the weak strong, and the old young again.

It was the antiquated (but now happily exploded) method in the good old times, to treat Salt Rheum, Scrofula, Cancer and other troublesome disorders arising from BLOOD TAINT with powerful alteratives, such as mercury, arsenic and other mineral agents. It was expected by this treatment that the poison could be killed while the blood was left to course through its channels holding in its circulation the specific germs of the disease. But in this way, every part of the body became more or less diseased. Nothing can be more terrible than a horribly destructive blood taint. It not only attacks virulently the different structures of the body, but many times the bones are honey-combed and destroyed. It often seeks out the nerves and spinal cord, and again it will bring decay and death to some vital organ, as the kidneys, liver or stomach. There is only one scientific method for the cure of blood taint. That is, PURIFICATION! Every particle of the blood must be removed through the excretory channels, the lungs, kidneys, bowels, liver and skin. "First pure, then peaceable." The great restorative, reconstructive and vitalizer of the blood, JOHNSTON'S SARSAPARILLA, not only radically and exhaustively removes the taint, but also removes all mercury, calomel and other minerals, and fills the veins and arteries with the ruby, glowing current of vitality. "The blood is the life." Good health means pure blood. The old and reliable remedy, JOHNSTON'S SARSAPARILLA, is universally regarded as the greatest Blood Purifier ever discovered. This fact is now established beyond question or cavil.

WINE OF CARDUI

THE LINK THAT BINDS.

JACKSON, TENN., Nov. 23.

I was subject to miscarriage for three years, and suffered constantly with backache. I wrote to you for advice, and after using three bottles of Wine of Cardui, according to your directions, I am strong and well, and the mother of a fine girl baby.

Mrs. E. N. JOWERS.

McELREE'S

Wine of Cardui

There is no use talking—a baby in the house is the link that binds husband and wife together. Nothing is sadder than fruitless wedlock. The prattling and cooing of the little ones offset a thousand times the occasional worries and trials of life. When a wife is barren, there is a derangement somewhere in the genital organs, caused by one or more of those common disorders known as "female troubles". Wine of Cardui is the remedy. It puts the organs of generation in a strong and healthy condition, fitting the wife for the sacred duty of reproducing her kind. During the period of gestation the entire system of the expectant mother is built up to withstand the ordeal of labor, and when the little one makes its advent it is lusty and strong, well-fitted to grow to maturity in perfect health. The mother, too, passes through the trial with little pain and no dread. Wine of Cardui is truly a wonderful medicine for women.

A FAIR FOR GUILFORD COUNTY.

WOULD IT NOT BE A PROFITABLE UNDERTAKING.

The Views of Some of Our Business Men as to the Advisability of Starting the Ball Rolling

Several months ago the Telegram threw out the suggestion that a county fair for Guilford held annually in Greensboro would be a profitable undertaking for the city and for the whole county. A number of gentlemen, prominent business men, agreed with us in the proposition; but it was then too late to organize and hold a fair last year and too early to begin for this year, and there being other things to engross the minds of the people then, the idea was not pressed.

There is not a town in the state more easy of access and not a county more fertile and productive; no better farmers till the soil anywhere than we have in Guilford; no better machinists, mechanics, etc, than we have in Greensboro and High Point; no fairer or more dainty and artistically trained hands to do fancy work and to decorate than we have in our borders; no better grass lands and grain fields from which come the possibilities of raising the very finest horses, cattle, hogs and poultry, than Guilford's broad acres afford.

What then is lacking?

"Simply the determination to show to the world our resources and products, and concert of action to carry out that determination The business men of Greensboro, together with the invaluable co-operation and assistance of the farmers of Guilford, can push the matter to a successful conclusion. The success of the gala week of last year is proof positive of the truth of the assertion that an industrial fair for Guilford can be made a big success.

And it is none too early now, to begin to agitate. If we are to have a fair, farmers want to raise some big pumpkins, turnips, potatoes; take care of the most prolific stalks of corn, save the finest headed wheat in the sheaf, keep out of the market crop the finest feathered specimens of poultry, and make numerous other preparations for displaying their products. The manufacturers will want a fair show in arranging for the most creditable exhibits, and in fact every branch of industry will want a chance, and it is well to begin in time.

The prospects are bright for the finest fruit crop in this section we have had for many years, and this will form no small part of the wealth of attractive things the good old county has to display to the admiring thousands who will come to the fair.

In order to get the concensus of opinion among the business men of Greensboro about the matter, a Telegram man has made a partial canvass and below quotes the answers to the question: "What do you think of the suggestion of establishing an annual county fair for Guilford?"

Mr. C M. Vanstory, of the Vanstory Clothing Co: "The very best thing we can do, and I will do as much as any man in my line of business to get it."

Mr. W. G. Balsley, of same company: "I think it would be the proper step."

Mr. C. H. Dorsett, of the firm of Johnson & Dorset: "It is the thing to do. I am heartily in favor of it."

Mr. Will H. Matthews, clothier: "I think a whole lot of the suggestion. I am not only in favor of the scheme, but am willing to show my sincerity by contributing to it. It's a good thing." Push it."

Mr. S. B. Norris, of the Carolina Shoe Company: "Yes sir, I am for it tooth and toenail. It can be made as good or better than any fair in the state, and will be a splendid move for this city and county to make."

Mr. S. J. Kaufmann, haberdasher "I'll contribute to it. Let it be started and pushed. It is the right move, and I will do all I can for it."

Mr J. A. Odell, of Odell Hardware Company: "I really don't know, had not thought much about it. I will think it over. I expect it would be a good thing."

Mr. J. M. Walker, president City National Bank: "I haven't thought of it much; but believe it would be a good move. Talk it up."

Mr. G. W. Denny, grocer: "A pretty good idea. I am in favor of it."

Mr R. L. Woodard, of Woodard & McCuiston, hardware: "I am heartily in favor of it."

Mr. J. A. Cannaday, of Vuncanon, Cannady & Co: "It will be a mighty good thing. Guilford is the best county in the State and ought to let every body know it."

Mr. J. M. Hendrix, dry goods merchant: "I don't know whether I am in favor of it or not. I rather think we should bend all our energies now toward the securing of good roads for this county."

Mr. E. R. Tucker, of Tucker & Erwin, grocers: "I don't see why we can't have as good a fair as there is in the State, I am for it."

Henry Hunter, grocer: "I am in favor of it."

Mr. C. C. Fordham, of Grissom & Fordham, druggists: "A good scheme. The town is big enough and the county is rich enough to make it a big success if the proper business judgment is placed behind it."

And so we might go on asking the same question to all of our business men and receive practically a unanimous answer in favor of the suggestion. The time seems to be ripe for the matter to take on form and shape and to materialize into a strong fair organization. It is doubtful if a single man could be found who would really oppose it.

Again, what is lacking?

Simply determination to do and the concert of action necessary to execute.

GREENSBORO'S PRETTY GIRLS.

A Visitor Says We Have More of Them Than Any Town in the Country.

A young man from Washington City, who has been visiting in Greensboro for several days, told the Telegram man this morning that there were more pretty girls in Greensboro than in any city that he had ever visited, and he has traveled about a great deal.

"I have stood on F street, between Thirteenth and Fourteenth streets, for hours at a time and watched the pretty girls promenading up and down the street, but never have I seen as many pretty girls on that fashionable street as I have seen here in Greensboro in the past few days," said this young man.

In the spring a young man's fancy
lightly turns to thoughts of love.

Last night at the home of the bride on Bragg street, Rev. T. E Wagg performed the impressive ceremony that united Miss Julia Elliot and Mr. Sam Browne in the holy bonds of wedlock.

This had been unexpected by friends of the party up until a few day ago, and hence came in the nature of a surprise. However, their friends are heartily congratulating them, the more so that this event was not expected before yesterday.

The boys showed their admiration last night by a big serenade, in which all kinds of instruments played a part.

Both Mr. and Mrs. Browne are highly thought of here.

Bare feet are almost preferable to some shoes. The kind that it is necessary to break in generally make a man break out and say things. We had made purposely for comfort a lot of men's fine kid shoes in lace and congress. The prices are right.

Further light has been thrown upon the action of the negro preacher Merrit, an account of whose doings appin these columns last week. The threatening letter he claimed to have received has since been found to be in his own handwriting, and the fact has further developed that he was in serious trouble here and adopted this expedient in order to escape the consequences of his misdeed. At a meeting of his church held last night resolutions were passed that the money due him be sent him and that he be told to stay away from here.

REV. MR. SMITH

Could Not Accept the Wilmington or Little Rock Pastorates.

Presbyterian Standard.

A letter from Mr Hay Watson Smith announces that he declines calls to both Wilmington and Little Rock churches, and that he has requested the Orange Presbytery to drop his name from the roll of Licentates. Mr. Smith has found himself to be out of harmony with the doctrines of the Southern Presbyterian church, and while we regret for the sake of the two churches interested, that he did not learn his own mind sooner, we commend his course in peaceably withdrawing from the church whose faith he is unable to accept, and pray that he may be useful in whatever part of the Master's kingdom his lot may be cast.

Philadelphia, April 13, 1900. Messrs. Thacker & Brockman, Greensboro, N. C: Gentleman:—Your favor of 12th inst received and contents noted. In reply will state that the "St. Mark," carrying our China matting, has arrived, and been in port for several days. We are now shipping mattings and will be able to ship your goods tomorrow. We are glad to state that this cargo has turned out in first-class shape, and the mattings are fresh and desirable, and we have no doubt but what you will be very well pleased with the same. Regretting that they have been so late in arriving, and hoping for further orders from you, we remain, Yours truly, Albert Graff & Co.

We placed an order in December with the above firm for some two thousand yards of mattiog, to be shipped February 1st, and have been very much disappointed at not getting it here long before this time. We have been promising our customers all along that it would soon arrive, and as the above letters show we have had good promises from the other end of the line. The entire lot finally came in this morning, and as the season is now already far advanced, we have priced this big lot of matting at extremely close margins in order to make it move off at a likely rate. There are about a dozen styles, prices ranging from 12½c to 33c per yd. THACKER & BROCKMANN.

is where we stand in the lumber business. At the kicking post, as it were, in regard to prices.

First comes the owner of the timber. He just woke up to the value of it and wants double last year's prices. Then the sawmill man. He has not been making a fortune and thinks now he should share a little in the general prosperity

They say to us: "We must have so much for our trees and work." After a while it is "up to you." Don't kick. You don't suppose we have nerve enough to put up prices unless they had first been put up on us. No, indeed. But prices are NOT high. They have been to low and are just now getting reasonable.
